

Manufacturing

SUPPLY CHAIN SUMMIT 2019

26 & 27 February, 2019
The Westin Garden
City, Mumbai

Delivering Value:
The Next Chapter of
Manufacturing 4.0

Gold Partner

jda.
Plan to deliver™

ABOUT US

The 8th Edition of Manufacturing Supply Chain Summit, offers an integrated portfolio of leadership networking, information and professional development sessions for industrial executives in India. Our mission is to help senior executives define and shape a better future for themselves, their organizations and the industry at large. This platform also recognizes individuals & companies who have excelled in their endeavors over the past 12 months.

JOIN US FOR THE OPPORTUNITY TO

- Ensure your business process delivers across all levels in the organisation through the latest in strategy, planning and change management techniques.
- Validate your strategic vision & investment decisions with industry leaders.
- Create value through process improvements by leveraging the latest technology.
- Learn & benchmark from other companies - know the best practices & market trends.
- Streamline your operational process and align these process with your overall business strategy.
- Explore new collaboration opportunities & increase your points of presence in India.
- Interact and forge relationships with the Lean Six Sigma Professionals.
- Play your part in demonstrating India as a manufacturing powerhouse.

EXECUTIVE PROFILE / WHO WILL PARTICIPATE

Executives seeking to learn, benchmark and share best practices in manufacturing excellence & innovation including CEO, COO, CIO, DIRECTOR & VICE PRESIDENTS OF;

- Engineering
- Innovation
- IT
- Manufacturing
- Operational Excellence
- Operations
- Production & Design
- Supply Chain
- R & D

WHY YOU MUST ATTEND?

Plan for the Future State

Success today depends upon a deft marriage of new business models and game-changing technologies. Get inspiration & imagine highly intelligent, agile information-driven factories & dynamic teams that can respond rapidly to change.

Access Innovative Ideas and Emerging Trends

Feel the pulse of the manufacturing state of business while gathering ideas of the future technologies, trends & user expectations. Find solutions to real business problems by interacting with your peers and gaining a view into the future of manufacturing and supply.

Develop New Leadership for Manufacturing 4.0

Be prepared for the future state of manufacturing here new rules of leadership will prevail. Gain applicable insights into successful employee engagement for a new generation.

Learn through Collaboration

The culture of the Summit has been described as "welcoming, engaged and passionate". Benefit from the intimate setting of the Summit, which inspires openness and sharing about the strengths and opportunities on other's journey so far.

08.00 am - 09.15 am

Registrations Over Breakfast & Tea / Coffee

09.15 am - 09.30 am

Lamp Lighting Ceremony & Welcome Note

09.30 am - 11.00 am : Panel Discussion

Theme: Industry 4.0 – Agility, A New Paradigm Of Performance At The Heart Of New Consumers' Expectations

- Why Industry 4.0? Insights into the decision-making process for adopting industry 4.0 in your organization
- Blockchain for Manufacturing: Get to grips with the basics - why invest in industry 4.0
- Managing upwards by successfully demonstrating brand new data-drive revenue streams
- Understanding the real new skills that will be needed for the 4th Industrial Revolution; now and in the next five and ten years
- The collaboration effect: Factory of the future
- How supply chain design concepts will transform the future of manufacturing supply chains
- Future of manufacturing digital transformation - The process of refining manufacturing and evolution into industrial 4.0
- Engaging, developing & recruiting your workforce to avoid a skills gap cost reduction methods

10.30 am - 11.00 am

Tea / Coffee & Networking Break

11.30 am - 01.00 pm : Panel Discussion

Theme: Supply Chain 2025 - Examining Future Projections of An Industry In Transition And The Benefits Of Digital Advancement

- Understanding both the opportunities and challenges presented by the rapid pace of advancement of digital technology
- How these opportunities and challenges are impacting industries today
- What priority areas should the industry focus on immediately to help prepare for an increasingly digital and more connected future
- Focusing on customer collaboration, cost optimization, talent development and the digital supply chain
- Transforming the traditional decentralized supply chain model into a new, distributed end-to-end digital ecosystem
- What's next?: Discussing "Future of Work" in the supply chain

01.00 pm – 01.45 pm

Lunch & Networking Break

01.45 pm - 03.00 pm : Panel Discussion

Theme: Developing New Models For Supply Chains That Will Help You Get Closer To Your Customers

- Are your supply operations equipped to compete for a faster more flexible future
- Understanding the changing consumer in the market and how it impacts manufacturing technology, production lines and supply chains
- Establishing a world-class manufacturing and operational excellence strategy in your product supply operations
- Best tool and techniques for getting your supply chain right
- Capturing the dynamism that people can bring to the flow of goods and services
- Working across silos: Realising the synergies and maximising the opportunities
- Innovative intelligent warehousing management systems and solutions
- Delivering operational improvements: What works, what doesn't
- How to implement the same lean & OpEx strategies across multiple plants

03.00 pm - 03.45 pm

Table 1 :

Roadmap for digital transformation -
Creating a next generation supply chain

Table 2 :

Driving change through leadership - "What does great leadership look like?"

Table 3 :

Developing a robust supply chain - How to withstand the everchanging risks and demands

Table 4 :

Talent management - Why people are your supply chain's most important key to innovation and growth

Table 5 :

Imagining the future - How can we make use of new technology to gain a competitive advantage

Table 6 :

Automotive supply chain 4.0 :
Automation, innovation & globalization - What will future automotive supply chains look like

Table 7 :

Industry leadership panel - Pharma best practices in supply chain excellence

Deep Dives :
Focussed Interactive
45 Minutes Sessions
on Specific Topics.
Select One of Them
and Join a Group

03.45 pm - 04.15 pm

Tea / Coffee & Networking Break

04.15 pm - 04.45 pm

Presenting Partner Slot

04.45 pm - 6.15 pm : Panel Discussion Track

Theme: Modernizing Old S&OP For Brand New Profits: Your Roadmap To S&OP Maturity

- Integrate to accumulate: How demand planning, forecasting and S&OP work together to drive growth
- The people puzzle: Identifying required skills and hiring the best talent to deliver strategy
- Graduating to the big leagues: Implementing S&OP to successfully scale and manage growth
- Forecasting the unforecastable: How to align and manage demand for new products
- Disruptive supply chains: Managing demand and supply in a global supply chain
- Stop reacting & start predicting: How to improve demand planning for better demand reviews and decision making
- Big data, bigger answers: Gaining actionable insights from data and predictive analytics, and proper metrics
- Balancing act: Optimizing the S&OP supply review process to meet demand
- Going beyond supply chain: Integrating S&OP with financial & strategic planning for a new era

07.00 pm Onwards

Manufacturing Supply Chain Awards

08.30 am - 10.00 am

Registrations Over Breakfast & Tea / Coffee

10.00 am - 11.30 am : Panel Discussion

**Theme: Seismic Shifts In Procurement: What Will The Function Look Like In 2025?
What's The Foundation For The Successful Operating Model Of The Future**

- Now, not tomorrow: The impact of AI, data visualization & B2B marketplaces on procurement
- Rethinking operating models: Accelerating business performance through workforce innovation
- Moving towards a virtually integrated function: Accelerating time to market, improve quality and reduce costs
- Collaborative innovation: New ways to generate value from your suppliers & outpace competitors
- Connected procurement: Adopting the next generation mobile applications for streamlined decision making
- What are the steps to switch from continuous improvement to proactive value creation
- What will spend management technology look like in the near future and what will be the impact of innovation on the purchasing function
- Utilize Block-chain as a valuable tool for procurement and supply chain in the quest for transparency

11.30 am - 12.00 pm

Tea / Coffee & Networking Break

12.00 pm - 01.00 pm : Panel Discussion

Theme: Innovate For Network And Inventory Optimization - How Next Level Inventory Optimization Can Open New Paths to Profitability

- How to access complete stock visibility throughout your network and control the way you move stock with an efficient inventory strategy
- Understand the benefits of inventory optimization: Releasing working capital in times of growth, improve turns, reduce inventory holding costs and enjoy greater customer satisfaction
- Coordinate your order management strategy: How to align dynamic order routing with your replenishment strategy for successful inventory distribution
- Redesign your network to increase operational efficiency: How to utilize an IT platform, network tools and fully connected systems to optimize your operations
- Leverage a smart distribution network: How to conduct network studies to identify the best ways to align your fulfilment capabilities across multiple sales channels
- Developing proficient warehousing strategies to reduce cost and improve the responsiveness of your supply chain network

01.00 pm - 01.45 pm

Lunch & Networking Break

01.45 pm - 03.15 pm : Panel Discussion

Theme: Supplier Relationship Management (SRM): Benchmarking Supplier Performance - From Running The Business To Business Transformation

- Why are suppliers seen as an integral part of product design, innovation, and long-term profitability
- How proper Supply Relationship Management (SRM) and supplier benchmarking help contribute to success
- Aligning all divisions on the SRM program, and how to help generate value. Building internal and external teams that seamlessly function as a cohesive unit
- Effectively benchmarking your suppliers' performance and determining the most vital suppliers to your organization's success
- Understanding how leading organizations are measuring value beyond savings and how suppliers can deliver
- Measuring total supplier value, including quality, innovation, scale and technology adoption

03.15 pm - 03.45 pm

Tea / Coffee & Networking Break

03.45 pm - 05.15 pm : Panel Discussion

Theme: Building A World-Class Supply Chain To Enable A Constant Stream Of 'Play' To Customers And Consumers

- The latest technologies & strategies for visibility, flexibility and speed
- Transparency, control and synchronisation across all manufacturing and supply chain operations, including production, quality, labour, maintenance and material flows
- Training and Retaining a customer centric team - The future workforce of supply chain
- Cognitive logistics optimization - Moving forward with artificial intelligence
- Design your network for your customers: How you can use a customer centric approach to design your network architecture to respond quicker to market changes and increase customer satisfaction
- Innovations in supply chain architecture to meet the new demands of digital business
- The importance of delivering your brand experience to consumers: What this means in requirements from logistics' systems, and how your CRM systems as well as operations teams need to work

Presents

8th Edition **MANUFACTURING SUPPLY CHAIN AWARDS**

Award Categories:

Manufacturing Supply Chain Operational Industry Excellence

- > Automobiles
- > Pharmaceuticals
- > FMCG
- > Computers & Electronics
- > Telecom
- > Chemicals, Petroleum & Plastics
- > Cement
- > Heavy Engineering
- > Print
- > Steel
- > Construction
- > Textiles, Leather & Apparel
- > Metals
- > Wood, Leather & Paper
- > Food, Beverages & Tobacco

Operational Excellence In

- > Reverse Logistics
- > Warehousing
- > 3PL Warehousing
- > Sustainable Packaging
- > Material Handling
- > Safety Initiative
- > Procurement
- > Sourcing

Quality Excellence In

- > Safety and Environmental Sustainability
- > Planning, Processes & Systems
- > Most Innovative Processes & Systems
- > After Sales Service
- > Workforce Development

Best-In-Class Excellence In

- > Manufacturing Technology
- > Cost Management
- > Enterprise Quality Management
- > Manufacturing Innovation & Design
- > Productivity Management
- > Research & Development
- > Green & Sustainable Manufacturing
- > End-to-End Customer Solutions
- > Repairs & Maintenance
- > Continuous Improvement

Lean & Six Sigma Excellence

- > LSS Deployment of the Year
- > LSS Project of the Year
- > LSS Innovation of the Year

○ Strategy Excellence In

- > Raw Material Procurement
- > Factory Infrastructure & Design
- > Financial Procurement
- > Sourcing Led Quality Improvement
- > Vendor-Managed Inventory Programs
- > Inventory Planning & Control
- > Spend Analysis
- > Direct Procurement / Indirect Procurement

○ Smart Factories Award

- > Best Future Ready Factory
- > Best Factory Equipment Pooler
- > Best Factory MHE Service Provider
- > Best Factory Automation Systems Provider
- > Best Innovative Technology for the Factories of the Future
- > Best Use of Digital Technologies in Production
- > Best Industrial Software Service Provider
- > CAD / CAM Systems
- > PLM Systems
- > ERP Systems

○ Special Recognition Categories

- > Excellence in Sustainable & Operational Risk Management
- > Safe Workplace Champion Award
- > CSR Initiative in Manufacturing Sector
- > Digital Supply Chain Enterprise Award
- > Manufacturing Supply Chain Project
- > Supply Chain Technology Advancement / Solution Implementation
- > Enterprise Integration & Technology Leadership Award
- > TQM Project
- > Supply Chain Initiative of the Year

○ Individual Categories

- > Innovative Leadership in Quality
- > Best Process Excellence Leader of the Year
- > Young Manufacturer of the Year
- > Six Sigma Professional of the Year
- > Plant Head of the Year
- > Manufacturing ICON of the Year
- > Inspirational Leadership Award (Overall)

○ Organizational Categories:

- > Manufacturer of the Year
- > Manufacturing Supplier of the Year
- > Employer of the Year in the Manufacturing Sector
- > Manufacturing Supply Chain Service Provider of the year
- > Manufacturing Supply Chain Team of the Year

Somnath Chatterjee
Head - Procurement & Logistics
